July 27

Chuck Powell and wife, Linda, with their One-Design Rubber entries. Chuck built her model for their wedding anniversary! Now isn't that better than a diamond?

The NFFS tent was set up on the drive Wednesday, just southeast of the campground. It seemed to be the best solution to guessing the wind direction. It turned out to be a good decision. The drift was pretty much north all day.

A second line was set up by some gas rebels, north of the field on the south drive, as well as the FAC flightline.

The “pen” started out near the farmhouse and was moved to west of the campground. It seemed that no matter where you flew from, the northbound drift wasn’t going to harm you. Well, unless you were south of the big pond by the barns—then you could be in for getting your feet wet. As luck would have it, the wind was very calm, thermals were abundant, and chases were short for the bulk of the day. It was perfect FF weather.

B Gas had 15 fliers. Jack Marsh put on quite a show with 12 maxes! That is a lot of flying but attests to the great day it was. B NOS was just as crowded on the score sheets, showing 15 fliers, with Gene Smith posting 1,494 seconds to win! Great gas flying overall.

1/2A Classic Gas was just as contested with Jimmy Bocckinfuso scoring 1,098 seconds, again quite a feat. The event also had three Juniors going head to head and one Senior.

The two FAI events for the day were heavily flown. F1B is seven rounds with 19 fliers. It was a real contest. Four of the 19 made it clean through the seven rounds and flyoffs were held after the awards ceremony. I do not have the results as I write this.

F1J resulted in a flyoff also with Mike Fedor and John Lorbiecki. That is also to

happen on Thursday morning. Cade Fedor edged out Hayden Ashworth to win in the Junior category

A lone event, someplace in the annals of past years, Cargo, which used to be designated Clipper Cargo, is an event to basically see how much you could lift off of the ground and fly for 40 seconds. Although there were five entrants, only Bob Stalick flew for a score of 1,830 and became the Nats Champion.

E-36, the electric event for the day, is really popular. Electric events are gaining ground and, there were 35 entrants and 21 flew. Most fliers hovered on the three maxes needed to get to a flyoff, but only six went on, with Dale Elder winning the event. Hailey Mattson, a Senior, gave it her best shot. The Juniors in the event had respectable scores also. Hayden Ashworth nearly maxed out with 323 seconds for first.

Wrapping up the AMA side of the events were Small Nos Rubber, ABC OT Cabin, NFFS One Design Rubber, and Catapult. The Small NOS Rubber event required a score of 700 to be in the top three and three fliers made it, with Don DeLoach winning with a score of 731, Bud Romack with 711, and Bobby Hanford at 705 for third.

OT Cabin drew five flying the event and Bud Romack won with a score of 600 seconds. The NFFS One-Design this year was based on George Perryman’s Speckled Bird design and garnered six fliers. Don DeLoach won the event with a 307 and Chuck and Linda Powell followed with 282 and 278 respectively.

What’s special about the Powells is that Chuck built Linda’s model and gave it to her for an anniversary present. Coming from a

Free Flighter, what better anniversary gift could there be? For our birthdays, don’t we always want a model kit?

Hand Held Catapult Glider ... “Everyone can do this too.” Catapult is a highly contested event. There were well over 30 signed up and 23 open fliers. Two Seniors and three Juniors flew also.

In Open, thermals were picky and hard to hit but Ken Bauer bested Stan Buddenbohm for first place with a score of 568 seconds, a mere 16 seconds ahead of Stan. Being in the “pen” is an experience. You will always get plenty of thermal-picking advice but whose do you trust? William Reuter probably did not listen and scored a handy 176 to take first in Junior. Neither did Hailey Mattson who put up a 274 for first in Senior.

Team Catapult is where you form a team of three and fly for points. Four teams vied for the honor and the “BUMs” (Bauer, Ulm, and McKeever) took first with 1,165 total points!

FAC events: FAC events have probably the fastest growing interest of all events. The event winners are:

- FAC: Jimmie Allen; Don DeLoach
- OT Rubber Stick: Pat Murray (six max-outs, tie was settled with an unlimited flyoff, no max, 15-minute launch window)
- FAC Dime Scale: Wally Ferrell with a Beech Staggerwing
- Low-Wing Trainer: Wally Ferrell (seven fliers; perfect weather)
- Hi-Start Glider: David Niedzielski

That wraps it up for Wednesday; more flying to come!

Thermals. 

Roy Smith with his B NOS Dixielander.

Patty Lorbiecki, the hardest working NFFS “volunteer.”

Ronnie Thompson with his Hummingbird, standing next to Charlie Caton who designed the model in 1985.

Walt Tomash and his Thermic "50."

Junior CLG winner William Reuter.

Tommy Bell with a "Joe's Bird" F1J.

Tom Batz with his E-36.

Marty Richie and his immaculate Zero for FAC Scale.

Lee Campbell, the perennial Nats attendee, and his P-Nut Monocoupe.

Jim Gerszewski and his Gollywock, a consistent flier.

Lin Batz with his E-36.

Open Catapult winner Ken Bauer.

NFFS VP Gene Ulm with his Catapult.

Evan Simon launching is F1B.

FAC Jimmie Allen competitors.

FAC OT Rubber Stick winners.

FAC Dime Scale winners.

FAC Low Wing Trainer winners.

FAC Hi-Start Glider winners.

Junior Catapult Glider winners.

Senior Catapult Glider winners.

Open Catapult Glider winners.

Open Catapult Team Champions the "BUMs" (Bauer, Ulm, and McKeever).

NOS Rubber winners.

One-Design Rubber winners.

SAM OT/ABC Rubber winners.

NOS B-Gas winners.

Senior E-36 winners.

1/2A Classic Gas winners.

Senior F1B winner Kyle Gerspacher.

Junior F1J winners.

Junior E-36 winners.

Senior E-36 winner Hailey Mattson.

Open E-36 winners.

Cargo champion Bob Stalick.

B Gas winners.

Senior 1/2A Classic Gas winner Eleanor Stalick.

**Wednesday** was the first day of formal competition that took place at three different locations on the air base. This unique arrangement was extremely successful in allowing the pilots to make their flights within a comfortable time frame.

Each category—Sportsman, Intermediate, Advanced, Masters, and F3A—completed two rounds. Nearly 80 pilots are here to participate in the 2017 RC Precision Aerobatics Nats.

On Tuesday, there was much going on here to start the event. During the Blytheville AFB Dedication and Nats opening ceremony, a full-scale B-52 and C-130 flew in to join the festivities. The crews were our guests at the opening ceremony and dinner. 🛩️

See more photos from the RC Precision Aerobatics Nats on AMA's Flickr page: [www.flickr.com/modelaircraft](http://www.flickr.com/modelaircraft)

Chip Hyde.

L-R: Site Director Monte Ricardo and scorekeeper Peter Vogel.

The judges on one of the flightlines use the new "Scribe" system for scoring.

Mike Harrison's wife and grandson.

A stylish husband and wife pilot and caller.

One of our Precision pilots with his wife who also serves as his caller.

This aircraft uses interesting, new technology. The contra-rotating dual propellers work in opposite directions, which eliminates the usual torque of a single propeller.
